THOTA SAI ESWAR SRINATH

Full-Stack Engineer & AI Systems Builder • Founder of GoFocusGen & Bujji

Bengaluru, India • tsrinath2020@gmail.com • sesbuilds.vercel.app • x.com/sesbuilds • github.com/tsrinath2007 • linkedin.com/in/tses

FOUNDER & STARTUP EXPERIENCE

GoFocusGen — Founder & Full-Stack Architect LIVE • GOFOCUSGEN.VERCEL.APP May 2026 – Present

- Founded and architected a gamified study-productivity web platform that maps focus durations to real domestic flight routes across India using Next.js, TypeScript, Mapbox GL JS, and Tailwind CSS.
- Shipped interactive route maps, a coin/streak gamification economy, AI-powered study plan generation, and a real-time multiplayer *Co-Pilots Lounge* with WebSockets.
- Deployed production web application on Vercel with Google OAuth authentication, responsive UI, and custom analytics tracking.

Bujji — Founder & AI Engineer LIVE • HEYBUJJI.VERCEL.APP 2026 – Present

- Conceived and built an AI active-recall study companion based on the Feynman Technique, prompting learners to master complex concepts through explanation and conversational interrogation.
- Engineered dynamic concept knowledge graph generation, real-time misconception diagnosis, voice interaction sessions, and interactive waitlist telemetry on Next.js and Vercel.

COMPETITIVE SPRINTS & HACKATHON PROJECTS

Hacker House Goa 2026 — Voice RAG & SENTINEL Fraud Investigation TOP 10 TEAM SELECTION • TEAM OF 3 2026

High-intensity engineering sprint in Goa with multiple deployed systems (hhgoa.com)

- **Voice RAG Pipeline (Task 2 • goat-task2.vercel.app):** Engineered voice-enabled RAG system using ElevenLabs STT, multi-strategy chunking, and ai4bharat/MSMARCO-XI dataset targeting sub-200ms retrieval latency; built and deployed full UI to Vercel.
- **SENTINEL Fraud Intelligence (Task 4 • task-4-nvan.onrender.com):** Built autonomous GraphRAG fraud investigator over 590k IEEE-CIS/Vesta transactions (5,565 closed cases, 20-case benchmark) using TigerGraph, MCP, and Groq (Llama-3.3-70b) on Render.
- **Face Anchoring CLI (Task 3):** Built biometric feature extraction pipeline with cryptographic state anchoring on Polygon Amoy.

Parallax — On-Device Visual PII Redaction Chrome Extension SMART INDIA HACKATHON 2026 (SIH26171) 2026

Built for ISRO's on-device visual perception problem statement • Team of 6 (Feasibility Lead)

- Engineered a client-side Manifest V3 Chrome extension that automatically redacts sensitive visual PII in real-time before screenshots or telemetry reach cloud AI models.
- Implemented an in-browser Tesseract.js / WebAssembly OCR pipeline with regex pattern masking, an 80% confidence fail-safe gate, and local IndexedDB logging.

resume_ranker — Semantic Candidate Ranking & Bias Auditor NEXORA HACKATHON (MIT BENGALURU) • SOLO BUILD 2026

- Developed an end-to-end resume ranking and JD matching pipeline using hybrid semantic and keyword matching without paid LLM APIs, featuring job description bias auditing and candidate comparison matrix in Python & Streamlit (InternLoom UI).

PULSE RAIL — Railway Track Vibration Health Monitor ZUUP HACKATHON May 2026

- Built an edge-computing structural health prototype using accelerometers and on-node Wavelet Packet Transform (WPT) to detect rail vibration anomalies in real-time, simulating telemetry packet integration into India's Kavach protocols.

EDUCATION

Manipal Academy of Higher Education (MAHE), Bengaluru — *B.Tech in Computer Science* CGPA: 7.25 | 2025 – 2029

Turito, Hyderabad — *Senior Secondary (Class XII)* 93% | 2023 – 2025

The Athena School, Kurnool — *Secondary (Class X)* 75% | 2021 – 2023

TECHNICAL SKILLS & STACK

Languages:	TypeScript, JavaScript, Python, C++, C, Java, SQL, HTML5/CSS3
Web & Backend:	Next.js, React, Node.js, FastAPI, Streamlit, WebSockets, Framer Motion, Tailwind CSS
AI & Systems:	GraphRAG, TigerGraph, Model Context Protocol (MCP), ElevenLabs STT, Groq / LLMs, Tesseract.js / WASM
Tools & Cloud:	Vercel, Render, Git/GitHub, Docker, Mapbox GL JS, Polygon Amoy, PostgreSQL, IndexedDB
Methodology:	AI-assisted rapid prototyping (Vibe Coding), hackathon sprint coordination, full-stack product shipping
